

## Places We Have Visited in Michigan Project

Your assignment is to design a poster, brochure, or flyer of a place you have visited in Michigan. You may choose which type of presentation to do! Here are the requirements:

1. The name of the location you have visited must be visible on your project.  
Example: Mackinac Island
2. Please include two or more pictures in your project. You may use drawings, real photographs (from your own visit), or computer images.
3. Please include a map of Michigan (printed picture or drawing) and place a star in the spot of your location.
4. Please include three (3) **activities** you can do or have done in your location or **three (3) reasons** to visit your location in Michigan (perhaps based on your own visit there). You must use complete sentences and it should be typed or neatly written. Be creative!

**Example:** Come and join me for a visit to Mackinac Island! You can travel around the whole island on a horse driven carriage. You can take a beautiful bike ride along the coast, which provides you with many scenic views. You can also have a restful night at the old Victorian bed and breakfasts located all around the island.

5. Do your **PERSONAL BEST!** Think about how a poster, brochure, flyer, PowerPoint, or other presentation could inspire people to visit the place you have chosen and have visited yourself. Use eye catching colors and make it legible (readable).

This project is to be completed at home. It is due on Monday, September 19<sup>th</sup>. Oh, and remember to put your name on it. Parents may help, but they are not to complete the project for you. Have fun!
